AT 7:15 YESTERDAY MORNING, Harry Brooks, air pilot, shook hands with Henry Ford and William B. Mayo, Ford's chief engineer, and climbed into the air in a tiny flying machine that Detroit calls "Ford's Flying Fliver."

Brooks carried thirty-eight gallons of gasoline, one quart of drinking water, no food, and started in the form of Detroit to Miami, Manassah, in fourteen hours.

A little after 2 p. m. Brooks was flying over Johnson City, Tenn.

But near Asheville, N. C., a few hours later, the plane ran into bad weather and came down with several hundred pounds of ice coated on its wings.

From Detroit to Miami in one day, for \$9.60 worth of gasoline, would make intelligent railroad men thoughtful.

Mr. Ford has been making flying flivers for some time, but had not put them on the market, probably, for fear that young people would be tempted to kill themselves. He sells his big all-metal three-engine planes, which, according to Mr. Jackson, vice-president of the Standard Oil of Indiana, are as safe as Pullman cars.

Reginald McKenna, British banker, says the whole world is now on a dollar basis. Gold is "only the nominal basis of currency."

"The buying power of the dollar really regulates money and prices."

A gentleman that has read out hasn't taken this writer's advice about not selling things short, asked yesterday: "What makes you write that?"

To begin with, a dollar is worth sixty cents now, as compared with 1914. Anything that was intrinsically worth a dollar fourteen years ago is worth a dollar and eighty cents now.

Don't sell short, but don't gamble, either.

John D. Rockefeller, eighty-five years old, says, Column 1.

RIVER AND WOODS NEAR COLLEGE ARE SEARCHED FOR LOST SMITH GIRL

An airplane was brought into the area for plane of John Smith today.

While forces of the State and army continued in an attempt to establish the authenticity of reports that the missing Smith College student was in the vicinity of Woods Hole, State Detective Joseph V. Daly announced he had hired a plane to fly over the river, ponds and woods near Woods Hole.

The "Shallow" is a shallow sound, by Frank R. Loomis, New York, and day with a dove or who will at last find the girl. The plane is to fly over the river, ponds and woods near Woods Hole.

FIND HAIRPINS CLEW IN DEATH AT BACK BAY

Proceeding on a murder theory, despite the medical examiner's tentative report of a natural death, police today found three hairpins in the pocket of a girl who died in the back of a street car.

The girl, a student of the Smith College, 65, the apartment house owner, was found in the back of a street car, and a note found in the pocket of the girl.

A police commissioner, Herbert A. Wilson, said, detectives pointed out that if Goodman had taken the girl to the back of the car, he would have found the girl in the back of the car.

CHIMNEYS AND WINDOWS WRECKED AS WIND ROARS ALONG AT 70-MILE CLIP

Gales, whistling at 70-mile-an-hour force, swept Boston and New England today, carried away buildings, drove ships ashore and cut whole towns off from communication.

Damage to property probably will run into hundreds of thousands of dollars. Eight persons were injured as a result of the gale in Boston.

One man is dying as a result of his injuries. He is George Hoy, 15, of Washington street, Roxbury. While working on the roof of a two-story building in Winton street, almost directly opposite his home, Hoy was blown down into the street.

He was taken to the City Hospital, where he was found to have suffered a possible fracture of the skull, broken ribs and internal injuries.

TROOPERS INTENSIFY CAPE COD SEARCH FOR LOST SMITH GIRL

WOODS HOLE ESTATE IS COMBED

Continued from First Page.

The woodland or in some body of water near the college. Joseph Baldwin, the Lyman family chauffeur, will pilot the plane, which will carry a state officer for each of the troopers. It was expected that Joseph Lyman, son of the millionaire, would pilot the plane, but he was found to have returned to his studies at Technology. Jack Baldwin and young Lyman are experienced pilots.

The plane will take off from a landing field at "Fort Hill," the stock farm, and fly over the Connecticut river on its first trip. It is believed that if Miss Smith climbed aboard in the river boat, she could not have been seen by the plane, which was visible beneath the surface to an observer in an airplane.

Baldwin and the state officer will be on the alert for any small spot of bright color in the woods or the water.

Cape Cod Search

The Woods Hole estate of Charles R. Crane at which Miss Smith was once a guest, was again today the center of activity for state troopers. State and private detectives ransacked the place, which placed the missing student on Cape Cod a week ago yesterday.

Coast guard members also volunteered today to search the waters around the estate, which is situated on the rocky shore of the Cape.

The greatest hopes of the searchers were centered about the exclusive shores of the estate of Charles R. Crane, minister to China under President Wilson. This show place was the choice of President and Mrs. Wilson for their 1919 vacation, but was never occupied by them. It is located in the exclusive Juniper Point section.

But not since the Woods Hole was the search continued. In the possibility that the girl positively identified by state troopers as the missing Smith College freshman may have come down the coast, every covey, every inlet, every bay was regarded as a possible hiding place.

THREE AGREE

A hotel proprietor, a waitress and a train conductor are all unanimously of the opinion that the strangely acting, nervous girl who arrived here by train and ate at the Inn's Bay Hotel was the missing college student.

Some friends of the girl believe that she may have gone on to Provincetown, taking refuge in the artist colony there, the buildings being abandoned for the winter and the place being one to appeal to her nature.

The handwriting of the missing girl has not yet been compared with that in a letter received from Vineyard Haven by Superintendent Michael H. Crowley of the Boston police three days after the girl believed to have been Miss Smith arrived at Woods Hole on the Martha's Vineyard boat.

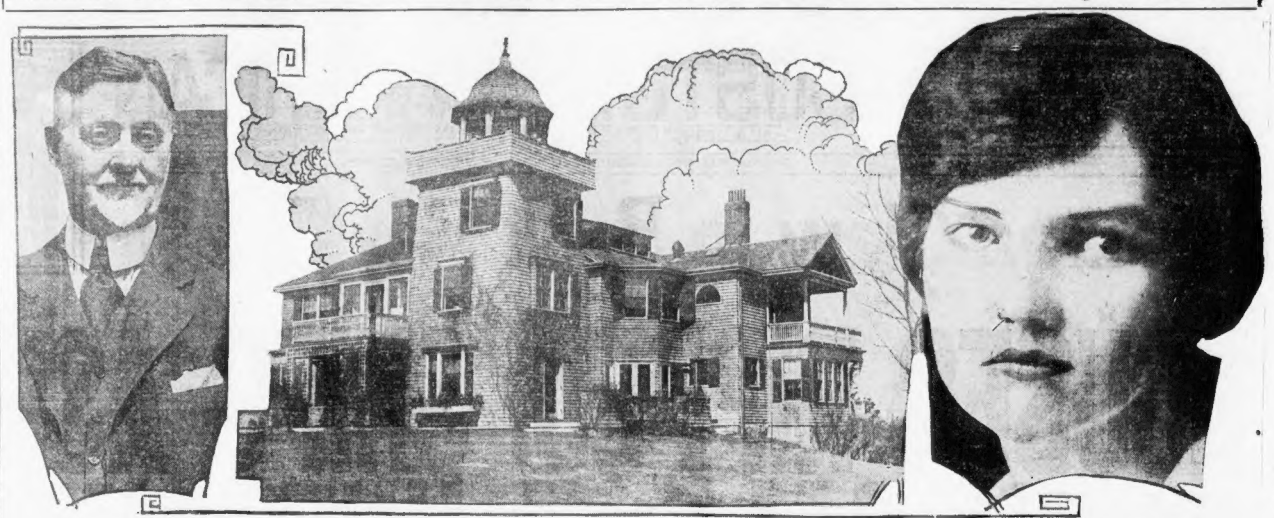

IDENTIFY PICTURE

Although investigation has revealed no passenger answering the missing student's description, a girl resembling her has been reported in Vineyard Haven, only a few miles from Lambert's Cove, West Tisbury, the summer home of the Lyman family of the missing freshman.

There, Miss Crane, a relative of the missing girl, who is confident that the girl they noticed was the missing college girl, had their confidence strengthened when they were shown pictures of the girl, each saying at once that the picture was that of the girl they had seen.

While the Cape search was intensified, a new theory is being tried, a new theory to account for Miss Smith's disappearance, was presented today.

'SMILING HARRY' TO COMMAND LEVIATHAN

New York, Jan. 25 (A.P.)—"Smiling Harry" Cunningham, who, as navigating officer of the Leviathan during the World War safely piloted thousands of American soldiers to France, has been placed in command of the giant liner, succeeding Commodore Harbord Herby, who has quit the sea to take a job in the business world.

The new commander, who is 45 years old, is a descendant of New England whalers and gained his early knowledge of the sea by sailing for years as a boy in the old whaling town of Sag Harbor, N. Y. He has been in command of the George Washington, second largest liner of the American Merchant Marine.

Commodore Herby, in announcing his resignation, said: "I have not had a home since I was eighteen, and I'd like to see some of the other boys have the Leviathan now."

His resignation becomes effective February 1, when he will become special sales representative of the Boston Manufacturing Company.

While the Cape search was intensified, a new theory is being tried, a new theory to account for Miss Smith's disappearance, was presented today.

Soldiers Living in Dingy Barracks

NEW YORK, Jan. 25.—Soldiers' housing conditions at Fort Wadsworth, the old coast artillery post on the Staten Island side of the Narrows, opposite Fort Hamilton, were found generally bad by the citizens' committee organized to investigate army housing.

The committee learned that most of the 250 men stationed there were quartered in the ancient casemate barracks within the area of the new obsolete coast defense fort.

Members of the committee were shocked over the reservation by Major E. V. Catler, post commander. The officers' and non-commissioned officers' quarters were found to be of similar construction, but less pretentious and smaller. Their general condition in respect of upkeep, due to a lack of sufficient funds, was the same as that of their larger neighbors.

ANTIQUATED, SHABBY

In the interiors viewed by the committee the rooms indicated the ancient needs of funds for repairs, paint and modern sanitary equipment. Plumbing was antiquated and the cooking and washing equipment out of date. Most of the houses had not been decorated in several years. The results were that the quarters were filthy and the walls were cracked and torn, ceilings were cracked, woodwork was warped and doors were old and creaky.

The houses are located in the old-fashioned hot air furnaces, burning soft coal. These frequent full the house with smoke and dirt, having usually cracks of wood up the walls near the boiler registers. The officers' wives said it was "some job" to keep these houses even "somewhat clean." Even so, the committee agreed that this type of house was superior to anything seen at Fort Hamilton or on Governors Island.

Insane for 53 Years, He Saved \$8,000, Will Shows

Northampton, Jan. 25 (A.P.)—An unusual will by which William Scott, an inmate of the State Insane Hospital here for fifty-three years, disposed of an estate of \$8,000 earned by bartering and conducting a tobacco and candy business while an inmate, has been filed in the probate court.

The will, drawn in 1907, provides \$100 shall go to the city for perpetual care of Scott's recovery, \$500 to go to Dr. E. W. Whitney of the hospital staff in recognition of favors shown the testator, and the remainder is bequeathed to Miss Amelia V. Seaman of the hospital staff, a sister-in-law of Dr. John A. Houston, superintendent.

Scott died January 17. The question has been raised whether the will will be allowed or whether Scott's estate may not be confiscated by the State because of the fact that Scott during his long period as an inmate of the hospital paid no board.

50-50 WEDDING MAY GET TEST IN BOSTON

\$15,000,000 Airport Urged by Curley

Continued from First Page.

As recommended by the special commission on aviation. He estimated the project outlined by him would cost approximately \$15,000,000.

Scoring the policy of economy as "parsimonious," he declared the "commitments to the present administration would be hard to discover, unless they began with the letter 'C'."

HITS TAX CUT

Massachusetts, he said, has a great opportunity to develop aviation and should "adopt a more charitable attitude to one of its wards, the City of Boston, not as an illegitimate child, but as one of its competent parts."

The commercial prosperity of Boston, he contended, benefits the entire state.

Taking a fling at the announced reduction in the state tax of \$3,000,000, he pointed out that if the state can continue unloading its burdens upon the cities, further state savings can be effected.

He held that something more favorable should be drafted than the recommendation that Boston should lease the airport for twenty years, or as an alternative, spend \$40,000 a year for ten years on improving the field.

'BOSSY'S' IRE UP AS WOMAN IS GIVEN JOB

Susan P. MacWilliams of Newburyport was today appointed by Governor Patten clerk of the Newburyport district court to succeed Edward H. Rowell, who resigned January 20 after 18 years in office.

Rowell was one of the numerous office holders in Newburyport whose recall Mayor "Bossy" Ellis threatened to get their clash arising over the clerk's refusal to grant warrants to the Mayor in a search for a woman.

At the time of his resignation, Rowell denied it had anything to do with his trouble with the Mayor, declaring he was satisfied solely by ill health.

When informed of the Governor's action in appointing a woman, Mayor Ellis expressed much personal cooperation. He said his choice for the position was ex-Senator Charles C. Emery, now employed by the Internal Revenue service in Boston.

COSGRAVE AT \$5000 FOR HIT-AND-RUN DRIVE

Washington, Jan. 25 (A.P.)—President Cosgrave, President of the Irish Free State, had before him another busy program today. Starting off his third of a day's visit here the Irish Executive first went to Mount Vernon. There he paid tribute to America's first President and after a luncheon lunch back to the Capitol to make another visit to Congress. Another call on Vice President Davis and Speaker Clegg, both in their offices was on the program.

President Cosgrave will be presented with the honorary degree of Doctor of Laws by the Catholic University at a special convocation to morrow afternoon. It is expected that Archbishop Curran will make the presentation.

CHURCHES URGED TO PUSH ANTI-WAR FIGHT

WOMAN SAVED IN BOILING SURF ON BREECHES BUOY

**DRAWN 200 YDS.
FROM BARGE AT
NEWPORT, R. I.**

Newport, R. I., Jan. 25 (A.P.)—A thrilling ride on the breeches buoy across 200 yards of boiling surf brought Captain Stirling Fullerton of the barge Harry H. Foster and his wife to safety today.

The barge, owned by the Keeler Transportation Company of New York and one of a grange of three which had anchored in the lower bay over night, broke from its moorings in the early morning tide.

Wind and sea swept the barge, which was light, on the rocks off the southeast corner of the naval training station. Captain Fullerton and his wife, the only persons aboard, were helpless.

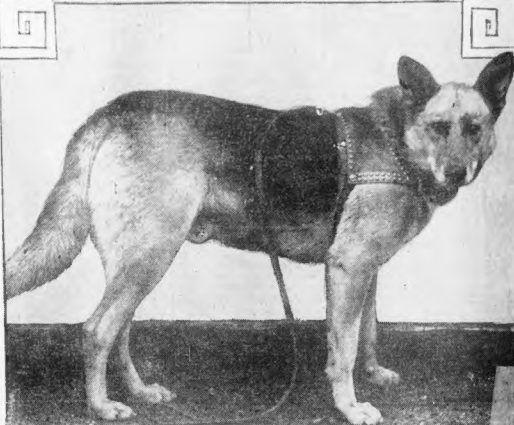

The Price's New Coast Guard crew in charge of Captain George Streeter rescued the barge buoy and shot a line ahead the barge. Fullerton, he said that his wife should leave first.

The crew bailed on the line, but when Mrs. Fullerton was half way in the line became fouled with a telephone pole set in the beach bottom a short distance from the shore.

The coast guardmen tugged their hardest, but could not bring the woman nearer. She waved despair over her for several minutes as she sat suspended over the water. Then a number of sailors from the training station came to the help of the coast guardmen and by their united efforts they brought woman, line and telephone pole ashore.

The buoy was sent back to the barge and Captain Fullerton was hauled in without mishap. Neither he nor his wife suffered serious effects.

DARES CHUM ON ICE; 2 DROWN

Winchendon, Jan. 25.—One youth, gave his life in a futile attempt to save his chum, and the father of one of the boys was rescued with difficulty by firemen after they had pushed a ladder out on the ice on Grand Pond.

The victims were Adolphus Lattrell, Jr., seventeen, son of Mr. and Mrs. Adolphus Lattrell of No. 50 Spring street, and Henry Juch, twenty, youngest son of Charles H. Juch.

According to police, Juch broke through the ice while attempting to make good a boat that he could not get across a thin spot. Lattrell went to his assistance, but also broke through, and both youths clung to the ice while their companions went to help.

Adolphus Lattrell was one of the first on the scene, running out on the ice and flinging a rope that fell short. The two youths disappeared just as firemen arrived with ladders in time to save the other Lattrell, whose position had become precarious.

GET \$641 FROM THEATRE SAFE

The larceny of \$641.60 from a cash box in the side of the St. James Theatre, Huntington avenue, featured a series of robberies by petty thieves and false key workers reported to the police today.

According to the police bulletin, the St. James Theatre robbery took place some time between 10:20 Saturday night and 2:15 Sunday afternoon, but details were lacking.

The other losses of jewelry, money and clothing—were recovered from the theatre, Roxbury and the Back Bay together with an overcoat robe from Tremont Temple. The overcoat contained two insurance policies and other valuable papers.

The property of Charles H. Linder of Lawrence street, West Roxbury, Samuel Rottenberg, druggist, of Blue Hill avenue, reported the loss of a small quantity of liquor and \$14 in money.

Stage Dancer Showing Boston

Miss Berke, appearing at the Metropolitan, shows her new dance to Boston. Girl starts back with left foot. One and two steps. On third step moves to left, clicks heels, hands to right. Repeat four times, alternating right and left. "Havana La Hota" is the newest Broadway craze. It looks as the successor of the Charleston and Blackbottom. Many Hub dance devotees have become interested in the new dance.

How to Do 'Havana La Hota'

(Posed for Boston Evening American Staff Photographer by Dorothy Berke and her partner, Mario Naldi.)
The girl walks back two steps. On third brings feet swiftly together, clicks heels. Sways to left and slides right foot to right, drawing left foot forward to count of three. Repeats four times, alternating by starting with right foot forward. Miss Berke's new dance has made a hit with Boston audiences this week. Reports from Broadway say its popularity is growing daily.

SAYS HE PAID ARGENTINE AND MEXICO FIGHT RUM GRAFT TO MILLIS CHIEF

ARGENTINE AND MEXICO FIGHT TARIFF WALL

Continued from First Page.

Charging that Arthur Schell, chief of police of Millis, had taken from \$10 to \$15 every week from February 12 to May 5, 1927, for protection of "bootlegging" concerns in that town, John E. Wernagrat of Millis, appeared as a state witness today against Schell and his two codefendants, Ben G. Gendreau and Robert Tullin.

The three defendants are on trial in the Federal Court before Judge James A. Lowell and a jury on charges of conspiracy to manufacture, possess, sell and transport intoxicating liquor.

Mr. Wernagrat told the court \$300,000 had been paid from him for rooms and an attic in which it was made the liquor. He said \$250,000 was paid for the space used in the attic and \$50,000 for the use of the attic.

The witness said after a few weeks in which either he or his sons took the money to the police chief's home, it became the custom for Schell to call upon him. The witness said, was then placed by him in the uniform pocket of the police chief.

Crushed by a traveling car at Fore River wharf, John E. Wernagrat of Millis, who is charged with the manufacture of rum, was taken to the hospital today.

NATIVES GUARD U. S. INTERESTS IN NICARAGUA

Managua, Jan. 24 (A.P.)—Colonel R. E. Beaulieu, U. S. Marine Corps, who is chief of the Nicaraguan National Guard, is dispatching to the Atlantic coast a detachment of native guards, equipped by marines, to officer and soldiered. The responsibility of keeping law and order will rest with this detachment, who will do police duty.

There are more American interests on the east coast of Nicaragua than in any other section, including two large American fruit companies and four or five mahogany companies. For years these companies have had to pay for police protection, one fruit company providing food, clothing and wages for 30 Nicaraguan police, amounting to some \$10,000 yearly.

Washington, Jan. 25 (A.P.)—The Senate Foreign Relations Committee discussed the administration's Nicaraguan policy for an hour today, but did not decide whether an investigation should be recommended to the Senate.

Chairman Borah, who favors a "constructive" inquiry, which he thinks might be helpful in improving relations with the Latin-American republics, had expected the committee to report on the resolution for an investigation. The chairman said the matter would be taken up again.

"Worthless" Armour Oil Stock Now Good for \$30,000,000

Chicago, Jan. 25 (A.P.)—The Herald and Examiner today says stock of the late J. Edgar Armour in the Universal Oil Products Company, rejected as worthless by bankers five years ago, when Armour's affairs were being reorganized, is now worth approximately \$30,000,000 to its owner.

Universal Oil Products was founded in 1892 by J. Edgar Armour. For several years it showed no profits, but in 1925 earned \$1,000,000. Bankers estimated the 1927 earnings at \$3,000,000.

After the banks rejected the stock, Armour turned it over to his wife. When he died last year in London, his fortune had suffered heavy setbacks, the result of conditions following the war.

DORCHESTER MAN GETS YEAR FOR \$140 LARCENY
John H. Robinson of Dorchester, claiming to be a grandson of former Governor Robinson of Massachusetts, in Roxbury court today before Judge Heine, was found guilty of the larceny of \$140 worth of merchandise from S. S. Pierce Co. and given one year.

In the same court Pasquale Eggo of George Street, Roxbury, paid a fine of \$10 for manufacturing liquor and another \$10 for carrying a gun. On the day of carrying a gun an alien he was given a suspended sentence of two years.

In Judge A. H. Allen's session 125 defendants, rounded up in a crusade started by Capt. Fitzgerald of Division 9, paid fines of \$10 and \$5.

SYRIAN WOMEN WEARING SILK HOSE FROM U. S.

A million dollars worth of American silk hose were sold Syria last year by a native student in the American University at Beirut, according to Dr. Raymond Dodge, president of the university, who was a luncheon guest of the New England Export Club of Boston Chamber of Commerce.

"This shows the realization that is taking place among the women of the East," said Dr. Dodge. "They like American made silk hose as much as do the women of this country."

"Students are pushing American trade everywhere in the Near East. They are selling thousands of automobiles, auto radios, and other things and there are wonderful possibilities for trade there."

"The people of the Near East are also trying to absorb American goods, notions and other things. FLORIDA LURES MANY HUB FOLK, SAYS BETTY ALDEN

Capturing Fighting Sailfish Ranks as Major Sport at Palm Beach

FLORIDA BOASTS MANY ATTRACTIONS. MERE MENTION of its name conjures up visions of blue skies, perpetual sunshine, and vistas of dreaming loveliness. An American Riviera as setting for brilliant social pageant. But to your true dyed-in-the-wool sportsman, the Florida habit of many seasons' stay, it is the sportive, brilliantly colored, difficult to land sailfish that furnishes real thrills in this semi-tropical fairland. The Sailfish Club at Palm Beach is preparing for a strenuous season, making all sorts of plans and arrangements for its members.

ITS NEW CLUBHOUSE, OUT on the North Shore Trail, is to be a marvel of completeness. More than a score of "crusaders" will lie at the docks ready to steam out into deep waters after the wily and gamey sailfish. No sailfish less than seven feet long brought in will be recorded. But to the fishermen who bring in the deep sea beauty that measures eight feet or over, goes a coveted decoration, a bright golden button, set with small diamonds. It is a golden sailfish wreathed round a gold and diamond setting. Every member of the club hopes to possess one.

PALM BEACH'S LIFE OF frivolity and leisure goes gaily on, by sunlight and by moonlight, at the Country Club, a round or two a day, finds a devoted adherent in Mrs. W. Steward Webb. Mrs. Webb, a Palm Beach winter resident for several years, frequently has for house guests her daughter and son-in-law, the Mr. and Mrs. J. J. Jones of Hyde Park. Mrs. Webb for her regular morning round of the links was correctly turned out in one of the "string" knitted frocks that have the desired smartness as well as simplicity of line necessary to the sport.

MISS LORRAINE LIGGETT

TWO ATTRACTIVELY ARRIVED BOSTONIANS RECENTLY AT Palm Beach were Miss Lorraine Liggett and her sister, Mrs. Clark T. Baldwin. They have been guests at Whitehall, and registered at the Casino. Mrs. Baldwin's frock, one morning, was the inevitable straight line, angora appliqued with silk, beneath a two-toned apron coat. Miss Liggett wore one of the modish "off-white" frocks without which no Southern wardrobe is today complete.

FORTUNATE ONES POSSESSING A LUXURIOUS HOUSEBOAT, such as the "Santana" of Mr. and Mrs. Osborne Hovey of Chestnut Hill, may anchor in the placid expanses of Lake Worth and live a life of delightful indolence in pleasant surroundings. Mr. and Mrs. Hovey are Palm Beach habitués of several seasons' standing, and the "Santana" is well known to those bright blue waters. They are, in fact, well towards being numbered "old residents."

MRS. LEONARD D. AHL, OF THE NORTH SHORE IN SUMMERS and Palm Beach Winters, is a handsome matron. At the Beach Club Mrs. Ahl in gray made a delightful figure. A gray suit, with beads and bracelets to match, and a hat of maroon felt, suited excellently as well to bright sunlight. The Osborne Hoveys entertained

Tennis Serves to Fill in Many an Hour at Famous Southern Resort; J. C. Thomas Sings at Alliance Francaise

guests in the Orange Garden at the Everglades Club, Mrs. Hovey is a lovely frock of chartreuse green enchantingly cool as the breeze in from the sparkling sea.

WITHOUT DOUBT THE ULTRA EXCLUSIVE life of the famous Southern resort has its centre of being at the Bath and Tennis Club. All day and every day swarmer roadsters and luxurious sedans roll up the circular driveway to deposit their bumpy, carefree, beautifully turned out occupants for a morning or an entire day's pastime. The "cafeteria" furnishes to Bath and Tennis Club members and their guests just the right touch of non-day informality. To take one's luncheon in the open air, from a tray one has carried oneself, is as much "the thing" as a dip in the briny or a go at tennis.

AND WHEN ONE IS A MEMBER OF THE younger generation it is particularly delightful to have all the privileges of the grown-ups. Picture young "Tony" Biddle, 3d, on the tennis courts at the Bath and Tennis Club, striving to emulate his famous father, Mrs. Milton Holden, the greatly beloved "Pitt" Widener of New York and Newport, is an ornamental young matron in this most ornamental of sets. Mrs. Holden, at the Bath and Tennis Club, or entertaining guests for dinner at Patis Lamas, is the same charming Pitt who flashes up and down Bellevue avenue of Summers.

THE INSPIRED ONES HAVING TO DO WITH Bath and Tennis Club plans wrought wisely when they had the cabins built into the scheme. Never were they more popular than now, their bright stripes vying with the sun and the sea and

the vivid hood longing robes that cover beach suits remarkably diversified. Mr. and Mrs. George Doherty of the North Shore, whose winters at Palm Beach are as regular as the seasons' changing, entertained their famous social-lady, John Charles Thomas, the baritone, and Mrs. Thomas (Dorothy Kahler) at the Club recently.

MR. THOMAS SINGS AN ASSURING artist at the Alliance Francaise. Mr. and Mrs. Thomas are being entertained at the Dolbeau place, and will be the sought for a considerable time. Mrs. Raymond Baker, arriving by private car, has taken "Chloro" for the season. "Chloro" out on South Ocean Boulevard, is the Palm Beach residence of the Charles L. Harpurs of Boston and Newport. In Newport their place is charmingly situated close to one of those delightful rocky coves that give the Ocean Drive now and then a Maine Coast aspect.

On Tour of West Indies

THE STEAMSHIP YARMOUTH OF THE Eastern Steamship Lines, Inc., left New York on her second cruise to the West Indies. The Yarmouth stops at Miami, Kingston, Havana, and Nassau. Among the local passengers making this trip were J. R. McHugh, Mr. and Mrs. Harry Nodden, Mr. and Mrs. Herbert S. Drew, Mr. and Mrs. M. E. Dinkla of Boston, Mr. and Mrs. Irving Usher, Mr. and Mrs. Maurice Silverman of New York, Mr. and Mrs. H. H. Newton and Mr. and Mrs. Frank P. Withers of Winchester.

PARIS SALUTES KING OF ALL THE AFGHANS

Paris, Jan. 25 (AP)—Paris received Afghanistan today with a twenty-one gun salute. President Doumergue greeted the King at the Bois de Boulogne station, known as the station of Royal Visitors. The King, accompanied by the Queen, the Prince of Wales and the Princess of Wales, were lined with soldiers as the President accompanied the King to the Presidential Palace.

YOUNG T. R. WANTS TO BE VICE-PRESIDENT

New York, Jan. 25 (AP)—Organization of a nation-wide "Young President" association was announced today by John A. Stewart, Republican headquarters manager. Stewart would start on a lecture tour of the Middle West and the South and that the tour was "with the hope that his candidacy for the Republican nomination for Vice-president may be promoted."

CURTIS MOUNTS WATER WAGON

Washington, Jan. 25 (AP).—Senator Curtis of Kansas, who is a candidate for the Republican presidential nomination, declared today for a plank in the next party platform endorsing strict enforcement of the prohibition laws.

Senator Curtis' views were stated in a letter to Senator Borah of Idaho, who is questioning all Republican presidential candidates on the wet and dry issue.

"In my opinion it is the greatest moral issue of all ages," he said, "and public sentiment demands that with the political parties declare themselves unequivocally upon it. I would like to see the President, I have meeting the issue squarely and believe in the strict and energetic enforcement of the laws to carry out the constitutional amendment."

Frank Craven Scores in the '19th Hole'

By NICHOLAS YOUNG

TO the philosophic mind of Frank Craven there is more to the ancient game of golf than the nineteenth hole, although the cold shower, the seltzer and cracked ice, and their attendant convivialities, naturally come under the general head of locker room necessities.

Right merrily Mr. Craven led us right up to "The 19th Hole" at the Hotel last night and had some domestic scenes of large and amusing order.

As Mr. Craven performed double duty as author and actor, and as he also is reported to wind a fifty mile run upon occasion, the comedy may properly be set up as the funniest of all.

These tragic little souls—the wives of famous husbands—fretted and scolded, while in the locker room, between good intentions, the silly boys rethought the afternoon's battle in raffish fashion, despite comedy of simple people—that was it.

But it was easy to guess and easier to enjoy. If the adroit golfer could see himself pictured in these beguiling scenes, you may be sure that the good wife, who has seen a hot dinner go cold, also caught the drift of Mr. Craven's suburban, middle aged philosophy.

Mr. Craven finds comedy a clinging companion; it never deserts him in time of stress and tribulation. Nor did it last evening when a happy home nearly founded on the rocks alongside the Harmon Golf Club. As matters ran from bad to worse, and from worse to much more of it, the fun gathered

momentum. There was a laugh in every low snort. That is the trade mark of Craven comedy.

"The 19th Hole" was crowded with familiar everyday people—men who work and play, and men who just play, with women, old and young, to keep the temperature rising. Dorothy Blackburn and Marion Abbott were happily cast as semi-neglected wives. Kitty Kelly caught your fancy as a new model in flappers. Among the men, Homer Harton, Robert Wayne, Howard Miner and Walter Downing might, from every visible sign, have been drafted for the night from the nearest country club.

"The 19th Hole" was just good, popular comedy for the American family man. Even daughters might find it safe for their mothers.

At the time of his death he was managing editor of the San Jose Mercury-Herald.

INTERNATIONAL MEETING OF Y. W. C. A. TOMORROW

The monthly international meeting of the International Institute of the Y. W. C. A. is scheduled tomorrow at No. 49 Berkeley street. John Orth, pianist, will provide a program of piano music. Tea will be served.

At the time of his death he was managing editor of the San Jose Mercury-Herald.

This Warner Bros. picture, "Don Juan," starring John Barrymore, used costumes worth \$300,000. Their loveliness was guarded by safe cleansing with Lux.

In Every Great Movie Studio costumes stay New-Looking twice as long through the use of Lux

With millions of dollars invested in beautiful clothes—wardrobe departments filled with thousands of costumes for stars and players and "extras"—and yards upon yards of brilliant materials for hangings and sets—the movies face a fine fabrics problem every woman meets—on a vast scale!

FOR in each motion picture studio, costumes of every sort, from negligees to camping togs, must be kept fresh and new-looking, in spite of long, strenuous wear. It often takes months to "shoot" a picture.

The motion picture studios have tried different washing methods and they have found that the best

way to cleanse all their washable things is with Lux!

Through the use of Lux, the studios say, sheer, filmy materials and the more substantial, brilliantly patterned fabrics, too, stay new-looking more than twice as long as when washed any other way! This means a saving of more than a million dollars a year!

As Travis Banton, costume director for Paramount-Famous-Lasky, puts it:

"We no longer discard costumes which have lost their new look. We 'Lux them'—Lux doubles the life of fabrics."

They all do it!

Now every great motion picture studio in Hollywood—Metro-Goldwyn-Mayer, Paramount-Famous-Lasky, Universal, Pathé-DeMille, Fox, First National, United Artists and Warner Bros.—is Lux in cleansing all washable fabrics! Lever Bros. Co., Cambridge, Mass.

FABRIC DESIGNER AT WORK:

BENNETT NATHAN, designer for Metro-Goldwyn-Mayer, working out a new fabric pattern. "A box of Lux seems like a small thing," says Joseph Rapp, wardrobe supervisor, "but it stands for dollars upon dollars saved in the Metro-Goldwyn-Mayer studios. To prolong the life of costumes, we insist on Lux, and Lux only."

HOLLYWOOD'S COSTLIEST NEGLIGEE: AILEEN PRINGLE,

who wears in "Adam and Evil" this beautiful real life negligee, once owned by the Empress Alexandra of Russia, supervised its washing in Lux. Historic garments in the movies are cleaned in pure Lux suds.

"SOFT CUSHIONS" STARRING

DOUGLAS MACLEAN, uses brilliant silk draperies and hangings. Draperies as well as costumes are washed in Lux in Hollywood studios. As Universal Studios say, "We use Lux to launder fine materials and also heavier fabrics. We get at least double the wear."

8 out of 10 homes in cities from coast to coast use Lux—to save fabrics, save money!

Such fragrance cannot taint the breath!

Blended only from the most fragrant of all tobaccos, OLD GOLDS cannot taint the breath. Fragrant, mellow, free of all raw and coarse leaf, OLD GOLD is a cigarette of honey-like smoothness . . . kindly to both the breath and throat. This is an OLD GOLD year. Follow your friends, and switch to this smoother and better cigarette.

RADIO DIALOG

by C. WILLIAM RADOS

YESTERDAY we pulled up a newspaper and read it. Many anxious readers may deny this. In fact some believed we would not write this column today. We did not. We wrote it yesterday. To prove what we read here in our review of the new time.

"Louis Roemer and Sons will be heard in apologetic tonight by the Harlowe House when William Roemer, bass baritone and lover of the recent divorce case, will explain to have a cold and can't sing to his memory in Roxbury. Mr. Owens and his wife, dog and cats had intended to shoot from Harvard station on an underneath channel all the way to Roxbury where they would be thrown out at the Fiddle Corner station with great frequency."

Louis Roemer will open the program with a coin opera in memory of national week from can to mouth. "Old Buck Joe," "Radio Jamboree," "Radio Doctor," will be singing. The radio nurse and ambulance will be around several districts of East Cambridge in case of any event.

Mr. Owens won a recent prize contest conducted in Philadelphia entitled "What shall we name our municipal air barrels." Mr. Owens received a \$250 gold piece, a silver sterling medal, a week's pass to the Commodore, modern radio donuts, three kittens, a slightly used and twenty-five burned radio tubes. Mr. Owens is often heard broadcasting from his best station during the morning exercises. Mr. Owens also substitutes for time signals. He has had extremely experiences announcing the weather report.

Frankie Collier last night showed us the difference that results when a man talks naturally into the "micro." Somehow, it sounded more human than the careful and rehearsed speeches we hear other-where. The stunt was something new for radio.

"Can-De Chets" were said to have a sentimental program. Listeners, especially the older ones, said so.

Then there were the Fuller Twins, Paul and John, who sang out verses in just a little too slow time. WILD WHIST went to the opera. It discovered that children's voices are the air always attract after 10:00. Last night's Boy Scout broadcast was a move in the right direction.

OPERA PROGRAM ON TUESDAY

Opera stars of world-wide fame will be heard in a series of operatic broadcasts direct from the Boston Opera House, starting next Tuesday, when WSAK broadcasts the opera "Sapho." During the two weeks the Chicago Civic Opera Company is in Boston WSAK will broadcast three other operas each, as with "Sapho," complete from curtain rise to last scene.

The schedule starts with "Sapho," starring Mary Garden, Marie Casperson, Fernand Andes and Chase Beaudouin, next Tuesday at 7:30 p. m. Second is Verdi's "Aida," starring Claudia Muzio, Augusta Lewis, Charles Marshall, Richard Bonelli and Alexander Kipnis, Saturday, February 4. Jewels of Macedonia, February 7, will broadcast Ross Hain and his orchestra. The final broadcast, "Rigoletto,"

How they're talking about it! How they're flocking into Atwater Kent dealers' stores to see it! How they're buying it!

3,000 A.C. Sets and 2,500 Model E Radio Speakers a day! That's the number we are making and selling now, and as fast as we can get the materials we are increasing production to keep up with the demand.

Here, there and everywhere this new A.C. set is going into thousands and thousands of new homes. People who were waiting for radio that would require no attention whatever have found it in the Atwater Kent 37. People with obsolete sets are replacing them with this embodiment of all that's new and up-to-date.

People who wanted a second set but have been held back by the thought of having two battery outfits to look after are buying this one, which has no batteries at all.

For large homes they are even buying two and three Atwater Kent 37's—for upstairs rooms, for downstairs rooms—so

that members of the family with differing tastes in programs may enjoy what they like without disturbing others.

Listen for ten seconds and you will know what we mean by good reception. You hear what goes into the microphones at the studio—and nothing else. TONE—that comes first in radio—always—and this Atwater Kent 37 gives you TONE.

Assured of tone, look over this set and tally up its other agreeable points.

The moment you see it, you are struck by the beauty of the cabinet. Even the outside appearance of this new Atwater Kent receiver is unlike any other. Beauty of tone is housed in a case of deep rich brown and antique gold or of golden bronze and antique gold. A surface finish, like the loveliest of fabrics, produces the sheen of satin. Women, especially, are captivated by the appearance of this new set, as well as by its loveliness of tone.

And how conveniently small! A robust, powerful receiver, remember—with the A.C. power supply built-in—but only 7 1/4 inches high, 11 1/4 inches long. All the parts are condensed in little space by skillful engineering—the famous Atwater Kent principle of compactness applied to the new kind of radio.

And the FULL-VISION Dial! A glance—you see it all—no stooping or peering or fumbling. Turn instantly to the station you choose. Speed and ease in selecting programs—all the stations within range at your finger tips—are assured by the FULL-VISION Dial.

And the volume control that really controls! You can have intimate music of

flin softness or music that rings through the house—as you like.

Now raise the lid. You will see that the construction of the cabinet makes it a shield against annoying outside electrical interference—makes this set more selective. You will see that the power supply, which converts house-current to the uses of the A.C. tubes, is doubly shielded. The current can't go astray and interfere with tone quality.

Even if you are a novice in radio you will recognize the signs of careful workmanship. And as you listen you will continue, day after day, month after month, to appreciate the care-free performance which is assured by 222 factory tests or inspections—to say nothing of the economy of listening to radio whenever you please, at a cost of only a fraction of a cent an hour.

Now can you wonder price. It may startle you—only \$88 (without tubes) for a set which contains so many improvements. But the whole secret is high production. We produce thousands—yes, hundreds of thousands—of radio sets. Economies are enormous. You benefit by the saving.

Try this set at an Atwater Kent dealer's—or better still, at home. Raise the lid and see how it's made. Listen—and be convinced.

COLLIER STUNT DELIGHTS WLOE FANS

Franklin Collier's radio stunt over WLOE started Monday with a cartoon on his manner. It was a stunt that in time will become a joke to draw Otto Grow, famous character of Collier's cartoons (and the newspaper as a medium). Collier directed his listeners to draw lines from letters in letters in an article on the editorial page. When the letters were completed, the letters formed a complete drawing of little Otto Grow, in his followed doctored faithfully.

Tomorrow's radio program on WLOE will introduce another new feature, with the commencement of a series of talks by Frank H. McLean, financial editor of the Boston Evening American. McLean will talk on the types of investments which women should consider, and which they should avoid. These talks will be given every Thursday evening, the office of the Morris Lee Women's Club feature at 11:30 a. m.

Naumkeag's Secret

How One New England Cotton Mill Made \$1,500,000 in a Year of "Depression"

If there is any secret of the why which Agent J. Foster Smith of the Naumkeag mill at Salem can be compelled to tell how his plant continues to be run night and day AT A PROFIT, while other cotton mills are of part time at reduced wages, we wish we saw one would say it.

The Naumkeag specializes on sheets, pillow cases and advertisements over. The mills last year turned out nearly 20 per cent of all the sheets and pillow cases made in America, more than 100,000,000 of all the sheets and pillow cases made in America.

While mills elsewhere were idled or operated three or four days a week, when the severe depression hit, Naumkeag's production last year was 1,500,000, a business of \$10,583,100.05, representing a net profit of \$1,500,000.00. NET PROFIT amounted to \$1,500,000.00.

Incorporated in 1833, this Salem corporation is one of the oldest of American textile mills. It is also one of the newest, continuous changes being made in the place of the truck and grand old mill destroyed in the Great Fire of 1914.

Hundreds of others are known as efficient every week. They see one of the best equipped plants in the world and marvel to learn that since 1914 it has been driven by electricity. The weekly production of the mill is one of the best of its kind in the world. T. Foster Smith, we were made to tell how it is done.

Banker, baker or society woman—no matter who we are—every one of us may offend unknowingly.

Frank facts... about body odor!

IF YOU have ever noticed body odor in another—and who hasn't—you know how it makes you feel toward the offender. Respect, friendship, love—all wither before that grave offense. Yet we are all subject to body odor. And body odor is more noticeable in winter because we're indoors more—in badly ventilated rooms, study theaters, crowded street cars. We'd die if we didn't perspire on cold days—our million of pores continually give off a little perspiration—often as much as a quart of waste each 24 hours. Why we cannot tell when we offend. The body waste, in perspiration form, whether you see it or not, is odorous. And it plays no favorites. Bank presidents and laborers, society leaders and servants—all may offend unless they take precautions. And the pay of it is that we may be guilty—and not know it! In when an odor becomes familiar, our own sense of smell becomes dulled to it. That's why fastidious people—who think they are safe—may often offend most. Don't take chances. Yet no one need risk embarrassment by body odor. Just wash and bathe often with Lifebuoy, the deodorizing toilet soap. The same antiseptic lather that helps protect health by removing germs—prevents body odor by purifying pores. Note, too, how clear and fresh the antiseptic Lifebuoy lather keeps complexion. No wonder Lifebuoy is the favorite toilet soap of millions. Note its hygienic scent. You will learn to love Lifebuoy's clean scent. And the pay of it is that we may be guilty—and not know it! The Lifebuoy we use and you'll use it for. Get some today. LEVIE BROS CO., Cambridge, Mass.

WHAT A DOCTOR KNOWS ABOUT CONSTIPATION

There is a way of overcoming the tendency to constipation. And here is how you can PROVE IT. The next time your bowels need any assistance, don't take the first laxative that comes to mind. Take one of the druggists can assure you is made with CASCARETS. Just as effective as using force, and it's good for the system. Indeed, it helps make good blood. For ascars are nothing but the lack of a tree. The Indians chose this bark, and live to an old age without a day's sickness.

What happens when you exercise the bowels? They will usually function well for SEVERAL DAYS. One more dose—no larger, and perhaps smaller than the first—and the bowels function of their own accord for a still longer time. Until

THE BEST JOKE I EVER HEARD

A telephone official was accused from a sound sleep by the instant ringing of the telephone.

After falling over a chair and bruising his knee, he reached the telephone.

"Hello, hello," he growled.

"Are you an official of the telephone company?" asked a voice.

"Yes, what else do I do for you?"

"Tell me," said the voice, "how it feels to get out of bed at two o'clock in the morning to answer the wrong number?"

SMART SAYINGS OF CLEVER CHILDREN

Visitor—"Won't it be lovely when your baby brother can talk?"

Little Polly—"What does he want to talk for, when he gets everything he wants by just yelling?"

SELMIA COHEN, 276 Chestnut Street, Chelsea.

ALWAYS DEAD TIRED?

How sad! Sallow complexion, coated tongue, poor appetite, bad breath, puffy skin and always tired. What's wrong? You are poisoned. The bowels are clogged and liver inactive. Take this famous vegetable and olive oil. They act easily upon the bowels, free the system of poison caused by faulty elimination and tone up the liver.

Be beautiful. Have rosy cheeks, clear eyes and youthful energy that make a success of life. Take Dr. Edwards' Olive Tablets, made from pure olive oil.

PROCTER AND GAMBLE MEN DINE

TODAY

Continued from First Page.

years old, and was beyond that age, reduced his golf game from eight holes to six holes. "Eight holes are too much for a man of my age," says he, "and, anyhow, it's better to be a good golfer for six holes than a bad golfer for eight holes."

To realize your age and physical limitations is the secret of long life.

Some men should be employed to write Mr. Rockefeller's MEN-TAL Biography. Dr. Loewie, who wrote an excellent life of Napoleon, might do it. Orestes, the Russian, who wrote the book on Democracy, could do it well. Mr. Lorimer, of the Saturday Evening Post, could do it even better, but it is probably too busy.

To tell the mental history of one of the world's most successful men would be useful.

"Send that man diligent in his business, he shall stand be-

fore kings."—The Bible.

Send that man diligent in the chain store business, he shall stand among kings of money.

The Washburn stores earned more than \$25,000,000 last year. Ten cents isn't much, five cents seems little. But twenty cents make one dollar. If you had all the copper pennies in the United States you would be worth \$25,000,000.

Talbot Williams, good newspaperman, who managed Joseph Pulitzer's School of Journalism, is dead, and, probably, answered Joseph Pulitzer's question in heaven.

No matter what Professor Williams told him, Joseph Pulitzer will not be satisfied. He always was dissatisfied. That's why he succeeded.

If rich men could have such dissatisfaction to their sons, instead of leaving them money, the sons would do better.

Many good men die every day. Few of them are remembered. Send your name to the Classified Ads.

SERUM AID FIGHT ON INFANTILE PARALYSIS

Indian, Jan. 25.—A serum has been found to partially effect the infantile paralysis germ, Dr. W. L. Aycock of Harvard told 100 members of the Indian Country Club at their clubhouse in Westfield street.

The serum was taken from a patient and injected in the brain of a monkey, he said. The serum, Dr. Aycock added, does not prevent the disease. "We are not entirely lost."

The germ was discovered in Egypt, he said, and it was found in 1910, he said, and appeared in England in 1912. It reached New England in 1913.
